

WHAT EACH AUDIT TIER DELIVERS

Four audits, four niches — see what each tier adds.

One example per tier, each for a different fictional brand in a distinct category, so you can see exactly how depth escalates from a free snapshot to a comprehensive plan. Every figure is sourced and method-noted.

Illustrative samples — not real client engagements. Figures are representative; method noted on each.

\$0

Brand A · observability · "Lumen Observe"

The one-page snapshot

SHARE OF MODEL · "BEST OBSERVABILITY TOOL FOR KUBERNETES" · MEDIAN OF 10 RUNS

5th of 5. Source: illustrative teardown · 5 prompts × 3 engines · Jun 2026.

Three quick wins

01 Publish a "high-cardinality cost" comparison page
Engines cite a cost-comparison source you're absent from.

02 Add Organization + Product schema
Give engines clean structured data to parse.

03 Answer-first intro on your top docs page
Lead with the recommendation engines can lift.

STARTER

\$500

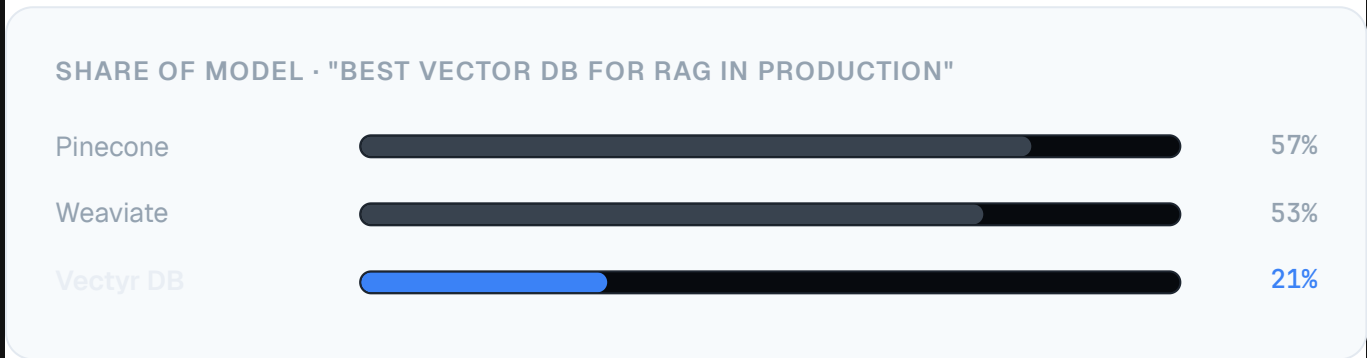

Brand B · vector database · "Vectyr DB"

+ Adds over Free: 10 prompts · 2-3 engines · AI-readiness scorecard · top-10 fixes

Technical AI-readiness scorecard

AI Visibility Score 33 / 100 ("Building"). Source: illustrative Starter audit · 10 prompts × 3 engines · 95% CI · Jun 2026.

Top-10 fixes (excerpt)

- 01 **Publish a latency/recall benchmark page**
Owned source engines can cite for "production RAG".
- 02 **Earn a GitHub README comparison mention**
Engines pull from repo docs in 6/10 runs.
- 03 **+ 7 more, prioritised by effort × impact**
Full list in the deliverable.

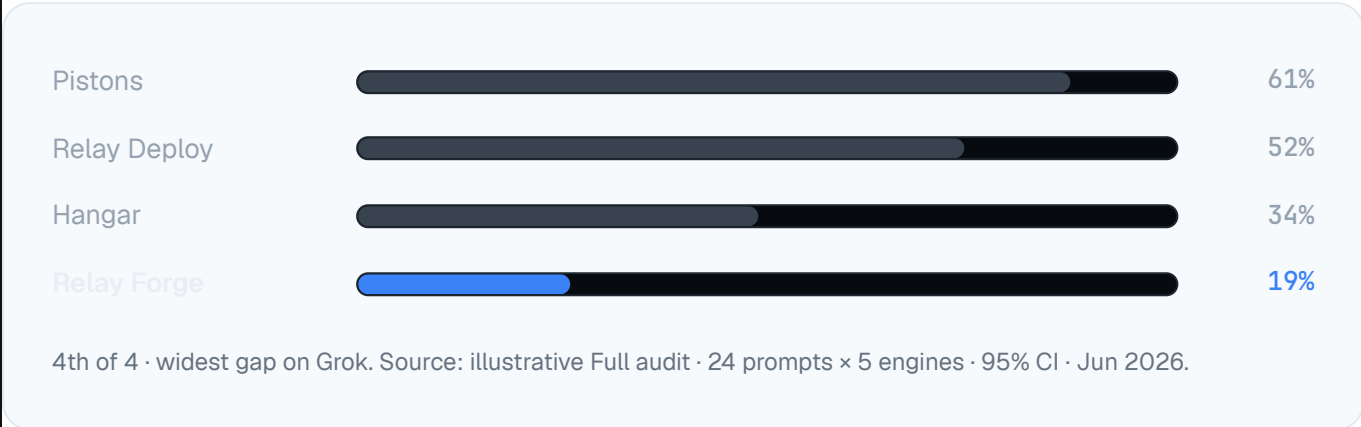

FULL \$2,000 Brand C · CI/CD · "Relay Forge"

Adds over Starter: 20-30 prompts × 5 engines · competitor leaderboard · full SEO + findings · 30/60/90 roadmap

clearcited.com · Be the answer AI gives. Not real clients

Competitor share-of-model leaderboard

MEASURED · 24 PROMPTS × 5 ENGINES

SEO foundation findings

- 14 keywords in top 10; thin comparison coverage
- Core Web Vitals pass; schema missing on key pages
- Backlink gap vs Pistons on benchmark content

30/60/90 roadmap

- 0–30: benchmark page + schema
- 31–60: 3 listicle placements + 4 articles
- 61–90: digital PR + re-measure

COMPREHENSIVE

\$3,500

Brand D · feature flags · "Flagstone"

+ Adds over Full: top-5 page rewrites · schema specs · off-site placement plan · directory submission list

Everything in Full, plus the build plan

SHARE OF MODEL · "BEST FEATURE-FLAG TOOL FOR SMALL TEAMS"

Top-5 page rewrites + schema specs

- Homepage, /pricing, 3 docs — answer-first rewrites
- Article + FAQ + SoftwareApplication JSON-LD specs
- Entity / sameAs map for the brand

Off-site + directory plan

- Placement plan: G2, Capterra, comparison listicles
- Directory submission list (30+ curated)
- Digital-PR angle list with target outlets

DELIVERED A ready-to-execute build plan

Comprehensive is the only tier that ships the actual rewrites, schema, and submission lists — not just findings.

What each tier adds, at a glance

TIER	PROMPTS × ENGINES	HEADLINE DELIVERABLE
Free	5 × 3	Snapshot + 3 quick wins
Starter	10 × 2-3	Readiness scorecard + top-10 fixes
Full	20-30 × 5	Leaderboard + SEO + 30/60/90
Comprehensive	20-30 × 5	Full + rewrites + schema + off-site plan
